

KAHRAMAN
SARSILMAZ
MACHINE & TRADE COMPANY

Special Manufacturing Upon Request of Customer

‘ Yes We Manufacture ’

www.kahramansarsilmaz.com.tr

- **SPECIAL MACHINERY DESIGNS AND R&D**
 - Special Production Line Manufacturing
 - Welded & Machining Technological Mechanical Manufacturing
- **STEEL MILL & ROLLING MILL MACHINES**
 - Milling Equipments Manufacturing
 - Cold Rolling Equipments
 - Rollers
- **ENERGY SECTOR**
 - Wind Turbines Manufacturing
 - Thermal Power Plant Equipments Manufacturing
- **MARITIME SECTOR AND LOGISTIC SECTOR MACHINES**
 - Ship & Port Cranes Manufacturing
 - Transportation - Lifting Equipments Manufacturing
- **INDUSTRIAL CONTAINERS**
 - Liquid Steel Tundish
 - Scrap Waste Container Manufacturing
 - Chemical Waste Container Manufacturing
- **MINING**
 - Coal Sizing Machines Manufacturing
 - Mining Machines Equipments Manufacturing

QUALITY POLICY

KSM is the follower and supporter of the continuous development of the quality system.

To analyze customer needs and demands correctly

Accurate time delivery

To increase customer satisfaction with the feedback we provide from our customer

Collective work of all individuals within the company

Integrating our production into Industry 4.0

To accelerate workflow by guiding our suppliers correctly

To use resources in line with environmental policy by fulfilling legal requirements

To be a leading company in our sector by manufacturing in international standards.

‘ Special Manufacturing Upon Request of Customer ’

ISTANBUL
OFFICE

Founded in 1987, the company continues its manufacturing, R&D works, projecting and assembly activities with a diverse and detailed machine park at a distance of 10000 m² within 2 km distance from the Iskenderun Port / TURKEY

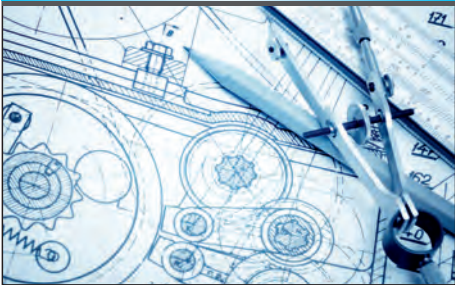

ISKENDERUN
OFFICE

Kahraman Sarsilmaz Machine design and manufactures (special designed) turn-key products upon requested of customers.

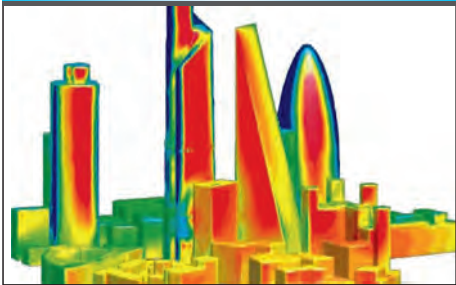

Design

Projecting

Resarch & Development

Material Supply

Casting

Steel Construction and welding

Stress Relieving With Vibration And Heat Treatment

Turning

Milling

Measure Quality Control-NDT Tests

Sand Blasting Coating

Assemble And Start-up

INDUSTRIAL CONTAINERS

LIQUID STEEL TUNDISH

CARRYING CAPACITY : 350000 kg.

Depends on our quality standarts, we use laser tracker measurement accuracy. Thus we manufacture with quality of micron level precision.

SCRAP CONTAINERS

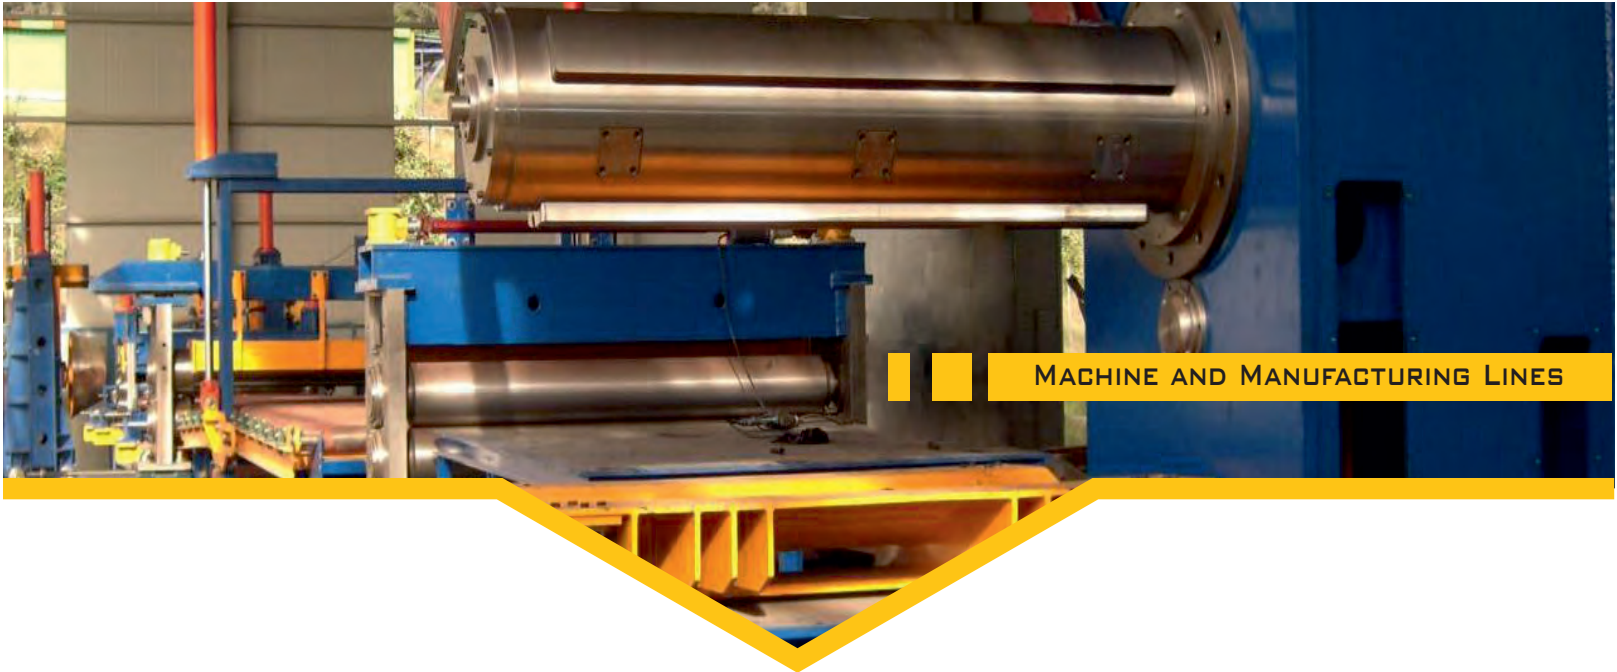

CHEMICAL WASTE CONTAINERS

Manufacturing of 500 kg to 50000 kg industrial containers

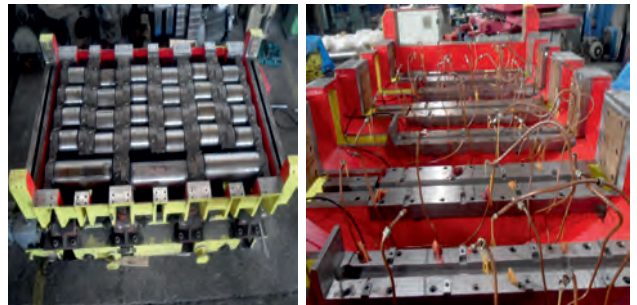

MACHINE AND MANUFACTURING LINES

SHEET METAL SLITTING LINE

SHEET METAL FLATTENING MACHINE

CNC WELDING FIXTURE MACHINE FOR PIPES

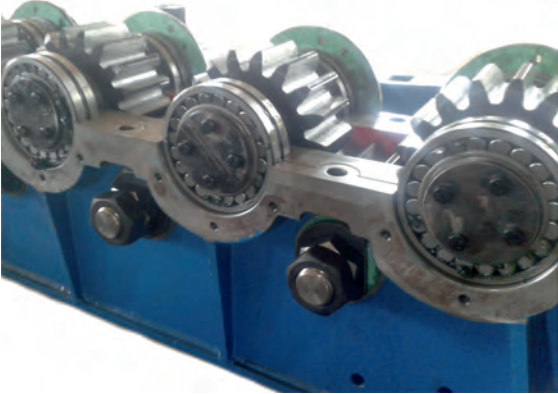

Total Length : 16000mm
Pipe Diameter : 600mm to 1000mm

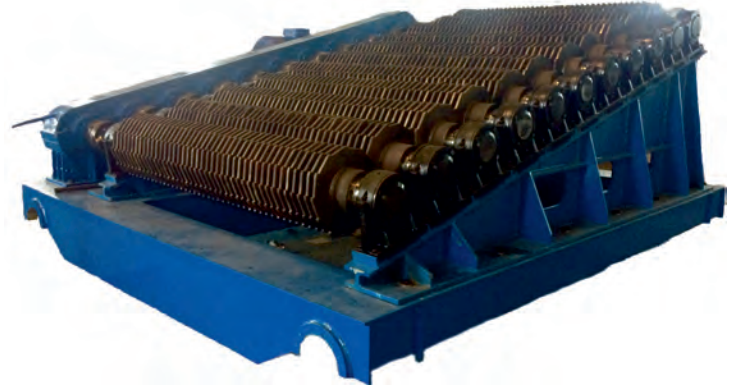

CNC Pipe Drilling Machine

R&D PROJECTS

COAL DIMENSIONING AND SEPERATING MACHINE

This machine dimensionised and seperate the different size coal. Also this machine useful for steel mill blast furnace , thermal power plants to increase efficiency of burning the way of separating the different dimensionalized coal. Design and manufacturing can be changed according to your need. TUBITAK confirmed this project.

PROGRAMMABLE WELDING MACHINE

This machine designed to programmed for different types of welding. It works automatically

www.kahramansarsilmaz.com.tr

Seaport Crane Manufacturing and Assemble

Seaport Kangaroo Crane
Load Lifting Capacity : 20 Tons
This Project Completed Only in 45 Days.

Blast furnace equipments

PORT AND SHIP CRANES, TRANSPORT-LIFT EQUIPMENT

TRAVERSE OVERHEAD CRANE

200 MT TRANSPORT EQUIPMENT

Linear Changing Equipment for Hot Rolling

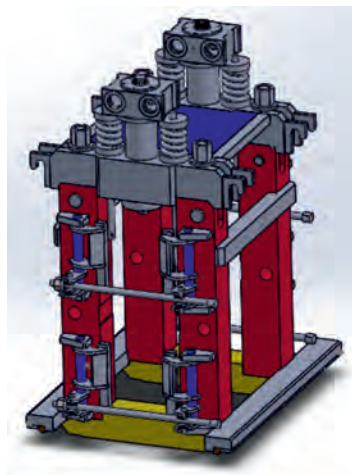

Changing Equipment for Roll Pass

STEEL MILL & ROLLING MILL MACHINES

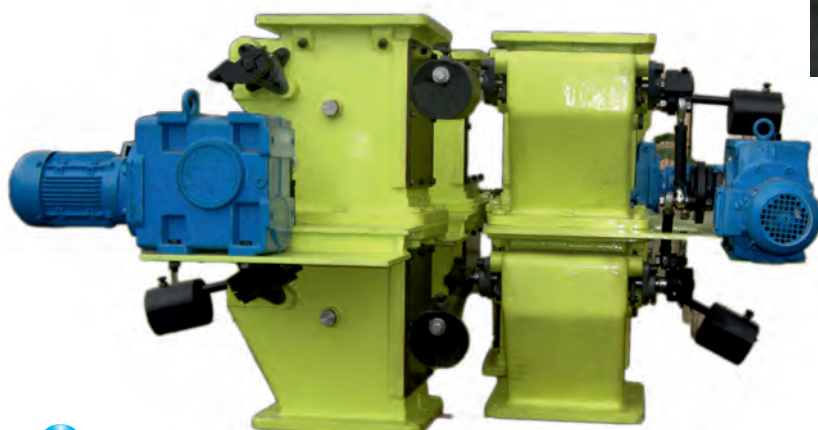

Role Housing

The Mechanism of Moving Furnace

Dust Holding Throttle

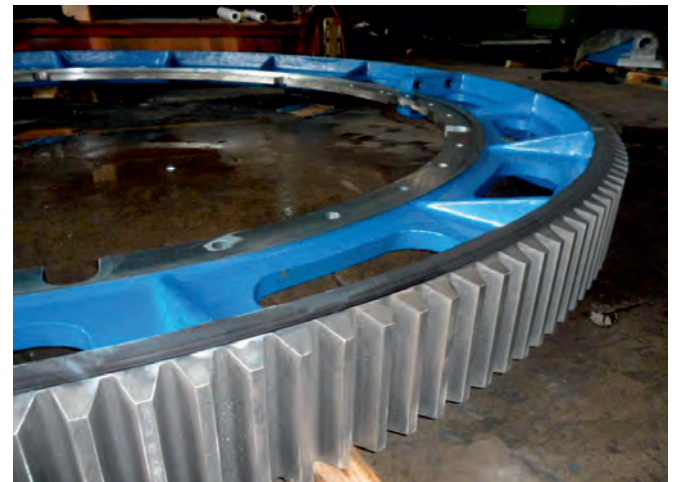

DIFFERENT SIZE SPECIAL GEARS & SEGMENTS

Diameter : 5000mm

BLAST FURNACE SPOUT

Diameter : 8500mm

EN ISO 3834-2

TS EN ISO 9001:2015

KSM MACHINE has provided a differentiated solutions by way of possession of the highest quality manufacture and design for different working areas. The high quality of all the manufacturing supported by the collective working of design team , qualified labour and special machine park amplified with special designed machines .

Laser Cutting Machine

Slapcasting Chasis

The 10 Meter Portal Milling Lathe

Plasma Arc Cutting Machine
